Dear Mr. Balsingh George,

My brother Dr. N. Janakiraman, Chicago, and I entrusted the property at U-50, 6<sup>th</sup> main road, Anna Nagar, to your Firm, Golden Homes, for construction of flats in June 2003. After quite some research of the background of the Builders, we zeroed in on your Firm. Our decision has proved absolutely right, as the work is nearing completion as per target i.e., August 2004.

The standard and quality of construction, supervision, selection of materials, curing at every stage, and, the professionalism, and, courtesy of engineering and managerial personnel have been of a very high standard, something not usually prevalent in the construction industry. The constant updating of engineering practices, and application of CAD and CAM have enabled your Firm to monitor the supply chain and workmanship. Your strict adherence to building plans, and, conformity to law is commendable.

I wish to thank you on behalf of my brother and myself, and wish you, and, your Firm greater and greater success to the satisfaction of home builders. I would have no hesitation to recommend your Firm for joint development of property for safety, security and reliability.

Wishing you the very best,  
Yours sincerely,

N. RADHAKRISHNAN
